

ACCOUNTING

Accounting is the language of business. Our accounting curriculum is designed to equip graduates with technical knowledge, professional skills, and personal attributes necessary for employment and growth in the accounting profession. In addition to making our graduates proficient in the language of business, we instill strong ethics and beliefs through the foundations of a strong liberal arts education. This combination makes our graduates unique and valuable assets to a variety of organizations. Seniors majoring in accounting may also enroll in the 4+1 MBA program. This will enable them to earn 150 credit hours and graduate in five years with two degrees: a Bachelor of Science in Accounting degree and a Master of Business Administration.
