WHAT WE'RE ABOUT

Graduate programs at the Mount have a strong reputation of innovation, quality, and academic excellence. Class sizes enable faculty to create valuable connections between learning, research, and the professional work environment. MSJ graduate students appreciate the consistent interaction with faculty, both as educators and mentors.

MASTER'S GRADUATE ENTRY LEVEL IN NURSING

MSN-MAGELIN is an innovative degree option that enables students to enter the nursing profession at the graduate level. This prelicensure program is for those who hold a bachelor's degree in a discipline other than nursing and who are interested in becoming a registered nurse in a short amount of time. The program is completed over four full-time consecutive semesters. Upon graduation, students will be prepared to take the national nursing licensure examination (NCLEX-RN). MSJ graduates deliver exceptional patient care at the bedside and move on to leadership positions in health care.

Entering the profession of nursing at the graduate level is a new concept in nursing and a growing trend nationwide. The Nursing program at the Mount is accredited by the Commission on Collegiate Nursing Education, 665 K Street, NW, Suite 750, Washington, D.C. 20001, p: (202) 463-6930.

PROGRAM FORMAT

The program spans four consecutive semesters and students enroll in 15-17 credit hours each semester. The courses are offered during the day. However, some evening and Saturday clinicals may be required. Students can be conditionally accepted into the program while working on prerequisite courses. Prerequisite courses need to be completed before the program cohort begins. Cohorts begin in January, May, and August.

Students take a variety of courses related to clinical content/practice, professional roles, research, theory, leadership, and health care policy. During the final phase of the program, students complete a preceptorship working one-on-one with a registered nurse for 144 hours. Students take a variety of courses related to clinical content/practice, professional roles, research, theory, leadership, and health care policy. During the final phase of the program, students complete a preceptorship working one-on-one with a registered nurse for 144 hours.

MSN-MAGELIN CURRICULUM

SEMESTER 1

Health Assessment/Lab
Evidence-based Primary Health Care
Nursing with Chronically Ill Clients/
Lab/Clinical
Professional Roles & Issues
Pharmacology/Lab

SEMESTER 2

Evidence-based Primary Health Care Nursing
with Acutely Ill Clients
Evidence-based Population Focused Primary
Health Care
Evidence-based Primary Health Care Nursing
with Acutely Ill Clients/Clinical
Evidence-based Primary Health Care Nursing

Mount St. Joseph University ("the University") is committed to providing an educational and employment environment free from discrimination or harassment on the basis of race, color, national origin, religion, sex, age, disability, sexual orientation, gender identity, or other minority or protected status. This commitment extends to the University's administration of its admission, financial aid, employment, and academic policies, as well as the University's athletic programs and other University-administered programs, services, and activities.

The University has designated the Title IX Coordinator, (513) 244-4467, as the individual responsible for responding to inquiries, addressing complaints, and coordinating compliance with its responsibilities under Title IX of the Education Amendments of 1972 and other related federal and state civil rights laws. The University has designated the Director of Human Resources/Equal Opportunity Officer, (513) 244-4979, as the individual responsible for responding to inquiries, issues, or complaints relating to discriminatory, harassing, or retaliatory conduct related to race, color, national origin, religion, age, disability, or any other legally protected status. The University has designated the Associate Provost for Academic Affairs, (513) 244-4614, as the individual responsible for responding for addressing formal complaints regarding compliance with its responsibilities under Section 504 of the Rehabilitation Act of 1973.
