

As of July 1, 2020, the U.S. Department of Education will implement new regulations that professional nursing programs (RN and APRN) must adhere to. Regulation 34 CFR 668.43 (a) (5) (v) will require the nursing program to provide:

- a list of all states/jurisdictions where the institution's curriculum meets state educational requirements for professional licensure or certification,
- a list of all states/jurisdictions where the institution's curriculum does not meet state educational requirements for professional licensure or certification, and
- a list of all states/jurisdictions where the institution has not made a determination of whether the curriculum meets educational requirements.

Additionally, a direct disclosure to the student in writing is required in regulation 34 CFR 668.43(c) by the education institution if the program leading to professional licensure or certification falls in one of the latter two categories above.

The baccalaureate degree programs in nursing, master's degree programs in nursing, and Doctor of Nursing Practice program at Mount St. Joseph University are accredited by the Commission on Collegiate Nursing Education 655 K Street NW, Suite 750, Washington, DC 20001, 202-887-6791.

Upon successful completion of the BSN or MSN-MAGELIN program, a graduate will seek application for initial Registered Nurse (RN) licensure by examination. This process varies for each state and U.S. territory. Contact information (link or address and phone number) is provided for each US state or territory below. Graduates requesting first time nursing licensure application must complete several steps. To begin the licensure application process, search the particular state board of nursing website for the application. Applications include some or all of the elements listed here:

- Verification of graduation or eligibility for graduation from an approved prelicensure RN nursing education program;
- Verification of registration to complete NCLEX-RN examination with Pearson Vue;
- Criminal background check;
- Social security number verification;
- Recent photo

All states require fees for licensure application. Fees vary by state and some states have first time license request fees waived. There is also a fee to apply for the NCLEX-RN examination via Pearson Vue. The responsibilities of a licensed nurse include knowledge of, and adherence to, the laws and rules which govern nursing as outlined in the nurse practice act and regulations. Review the nursing law and rules by locating your state nurse practice act and regulations.
