After the Mount/First Destination Survey Results

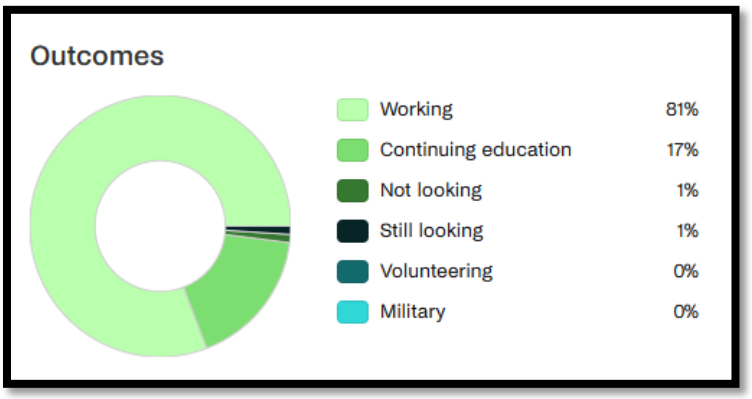

Class of 2025 (Aug 24, Dec 24, May 25)

Understanding the Data:

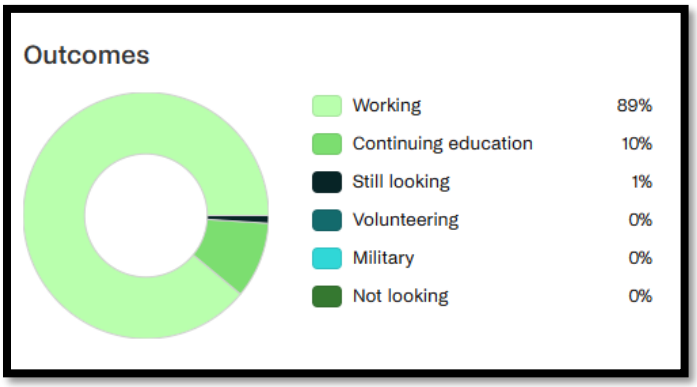

- **Career Outcomes Rate:** This is the number of graduates who have landed in any of the employment categories, plus service and military, plus continuing education divided by the number of students for whom an outcome is known. It excludes those graduates identified as not seeking an outcome.
    - Expressed mathematically the career outcomes rate is: (# employed + # service + # military + # continuing education) / (# employed + # service + # military + # continuing education + # still seeking employment + # still seeking continuing education)
- **Knowledge Rate:** This is the percentage of the graduating class for whom an outcomes destination is known. It includes the sum of all the employment categories, plus service and military, plus continuing education, plus the number of students still seeking an outcome or not seeking an outcome. It excludes those students for whom no information is available. This includes the survey response rate (below) as well as any sourced outcomes through LinkedIn, LiveAlumni, Handshake, public records, faculty information on student, etc.
    - Mathematically, the knowledge rate can be expressed as: (# employed + # service + # military + # continuing education + # still seeking employment + # still seeking continuing education + # not seeking) / total graduates
- **Survey Response Rate:** The percentage of students who filled out the survey (First Destination Survey, now called After the Mount Survey) and told us their career outcome directly.

OVERALL | 98.99% Career Outcomes Rate for the Class of 2025

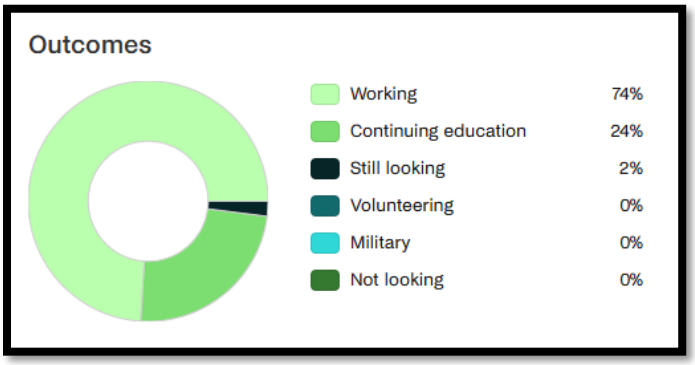

- **Knowledge Rate:** 78% (We know outcomes for 78% of the graduates from the Class of 2025)
